RS232–TTL Logic Converter

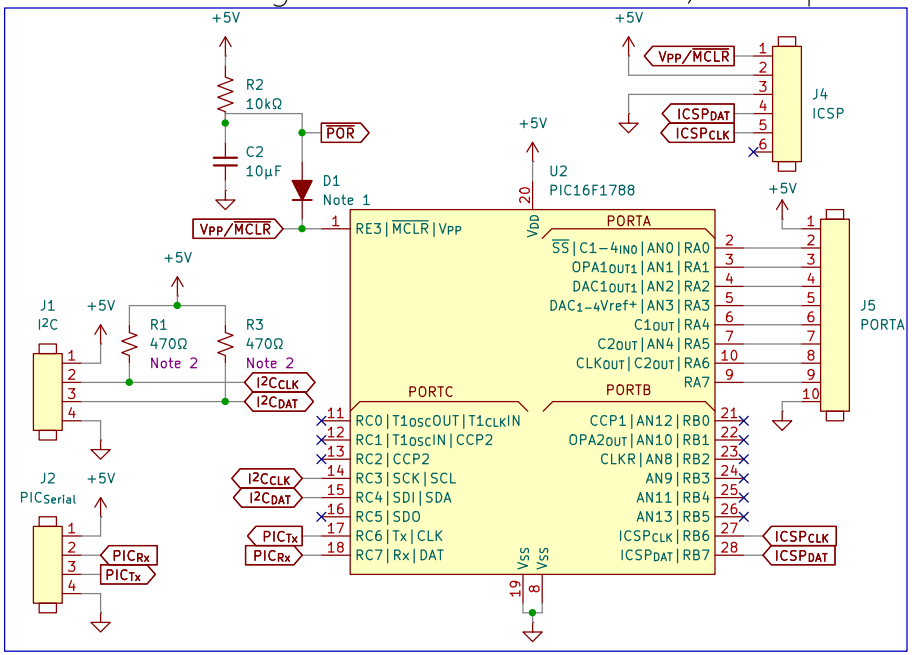

RS422–TTL Logic Converter

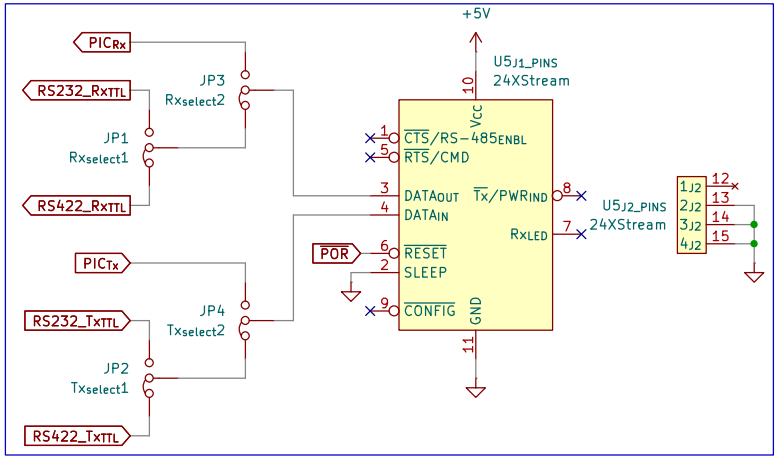

PIC and Logic Level Selectors/Jumpers

NOTE 1: D3 was tested with a 1N4148 general purpose diode.
Any equivelant GP diode should be sufficient.
NOTE 2: I2C resistors are set to 470Ω by default to preserve signal fidelity, but can be adjusted UP TO 4.7kΩ as seen fit.

RF Transceiver
